INSIDER THREAT DEFENSE

Security Behind The Firewall Is Our Business

Insider Threat Program Development - Management Training Course TM

Course Overview

- There are numerous security certifications that attempt to set baseline knowledge and skill standards for positions in Cyber Security, Information Assurance, Information Security, Information Systems Security, IT / Networking Security, etc. **Unfortunately these certifications do not provide the knowledge and core skill-sets an individual needs to develop, manage or support an organizations Insider Threat Program (ITP).**
- This **2 day** training course will ensure the ITP Manager, ITP Senior Official (FSO, CSO, CISO, Etc.), and others who support the ITP (Human Resources, IT, Network Security, Etc.), have the "**Core Knowledge / Resources**" needed for developing, managing, enhancing an ITP / ITP Working Group.
- This course will present a **greatly magnified view** of the Insider Threat problem, and provide a **proven and comprehensive** Insider Threat Risk Mitigation Framework, for detecting, deterring and preventing Insider Threats.
- This course **exceeds** the requirements for establishing an ITP per National Insider Threat Policy, NISPOM Conforming Change 2, and other compliance regulations requiring Insider Threat Detection, to ensure your government agency or business has a robust and effective ITP.
- This course is also very well suited for any organization or business that is not required to implement an ITP, but is looking to develop or enhance their ITP, or is concerned with employee threat identification and mitigation.
- This course provides a detailed view of the "Insiders Playbook" of potential breach scenarios, and will demonstrate the many Insider Threat risks that regulations and traditional security approaches fail to mitigate, and will put an organization's assets at risk.
- This course will provide a clear business case for the necessary Security Investments (\$\$\$) and C-Suite Buy-In needed for ITP's / Insider Threat Risk Mitigation.
- This course is based off the **Instructors** "**Real World Experience**" (10+ Years) helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective ITP's, using a methodical approach and ability to "**Think Outside The Box**". Insider Threat Defense provides our clients with the "**Gold Standard**" for successful Insider Threat Risk Mitigation.

Why Is This Training Very Important For Your Business?

What your company spent years to develop can be lost in an instant at the hands of "**Just One Malicious Employee**". The statistics on employee theft of intellectual property (IP) paint a dark portrait of what employees do when they are disgruntled, moving on to a new job, are under financial pressure, or trying to live a lifestyle beyond their means, and may find a strong incentives to steal from their employers.

The incidents of employee theft and other employee risks continue to grow, as outlined by the National Insider Threat Special Interest Group (NITSIG). The NITSIG has compiled some "Eye Opening" **reports, surveys and incidents** related to the Insider Threat problem. The damages can be severe and very costly.

Key Training Objectives - Students Will Learn

Insider Risk Governance / Insider Threat Program (ITP) Management

- ✓ How Damaging And Costly An Insider Threat Incident Can Be (Various Eye Opening Examples, Case Studies)
- ✓ The Legal Considerations On The Collection, Use And Sharing Of Employee Information
