- ✓ Dark Web Monitoring (Theft / Sale Of Sensitive Business Data)
- ✓ E-Mail Phishing Testing / Cyber Threat Awareness Training
- ✓ Technical Surveillance Counter-Measures Inspections (Covert Audio / Video Device Detection)

Our Industry Partners
<u>About Insider Threat Defense (ITD)</u>

ITD training and services are based off of our ***Real World Experience*** (**10+ Years**) helping the U.S Government (Department of Defense, Intelligence Community) and businesses develop robust and effective Insider Threat Program's, using a methodical approach and ability to ***Think Outside The Box***. Insider Threat Defense provides our clients with the ***Gold Standard*** for successful Insider Threat Risk Mitigation.

ITD is a pioneer in Insider Threat Program (ITP) Management Training. We were one of the first companies to offer comprehensive ITP Development / Management Training to the U.S. Government and defense contractors, who were required to implement ITP's, based of off National Insider Threat Policy, and NISPOM Conforming Change 2 regulations.

ITD training and services go beyond traditional compliance regulations; National Insider Threat Policy, NISPOM Conforming Change 2, Federal Information Security Management Act (FISMA), National Institute of Standards & Technology (NIST), Health Insurance Portability & Accountability Act (HIPAA), Payment Card Industry Data Security Standard (PCI-DSS), Gramm–Leach–Bliley Act (GLBA), Financial Industry Regulatory Authority (FINRA), Etc.). These compliance regulations are very weak in the area of Insider Threat Risk Mitigation.

Unlike other ITP Management Training and service providers, our training and services are based off of more then just limited knowledge and research. A primary centerpiece of our training and services is that we incorporate ***Lessons Learned*** based on our analysis of ITP's, and Insider Threat related incidents encountered from working with our clients, and from collaboration with an extensive network of ITP Managers / Security Professionals.

The CEO of ITD is the Founder-Chairman of the National Insider Threat Special Interest Group ([NITSIG](#)). The NITSIG is a unique and specialized Information Sharing and Analysis Center, focused primarily on Insider Threat Risk Mitigation. The NITSIG Membership is the largest network (**1000+**) of Insider Threat Mitigation Security Professionals in the U.S. The willingness of NITSIG Members to collaborate and share information among the membership has been the driving force that has made the NITSIG very successful. ***ITD incorporates this vast amount of Insider Threat Intelligence into all our training and services.***

A robust and effective ITP is built on top of a solid foundation of security. Our training and services incorporate these foundations from other training courses ITD has developed and taught. In 2009 NSA awarded ITD a contract for an Information Systems Security Program / Insider Threat Training Course. This course was taught to 100 NSA Security Professionals (ISSM / ISSO), the DoD, Navy, National Nuclear Security Administration, Department of Energy National Labs, and to many other organizations.

ITD works with our clients to proactively identify and mitigate security weaknesses and vulnerabilities that could ***Enable*** a Malicious Insider. We execute the ***Malicious Insiders Playbook of Tactics*** of potential breach scenarios, to demonstrate to our clients the many Insider Threat risks that regulations and traditional security approaches fail to mitigate, and will put an organization's assets at risk.

ITD is excited to announce we have provided our training and services to **540+** organizations and **680+** security professionals working for; Fortune 500 companies, U.S. Government Agencies (Department of Defense, Intelligence Community), Defense Contractors, Critical Infrastructure Providers, Aviation / Airline Industry, Spacecraft Manufacturing-Launch Providers, Technology Companies, Banking - Financial Industry, Health Care Industry, and other large and small businesses. ([Full Client Listing](#))

ITD has won numerous awards from the FBI InfraGard Program, Maryland InfraGard, American Society For Industrial Security (ASIS), and the Federal Information Systems Security Educators' Association, and has been recognized for various contributions in the many aspects of the security field.
