Insider Threat Program Management With Legal Guidance Training Course TM

One of the most important aspects of developing and managing an Insider Threat Program (ITP) is protecting the privacy and civil liberties of employees. Ignore this critical aspect and a business might find itself involved in a lawsuit with a current or former employee.

Insider Threat Defense (ITD) has partnered with the Insider Threat Management Group ([ITMG](#)) to offer the **only** training course that covers both ITP Management and Legal Guidance for developing and managing an ITP.

Mr. Shawn Thompson of the [ITMG / Insider Threat Training Academy](#) is a licensed attorney with over 15 years of experience investigating and prosecuting malicious employees, and managing ITP's. He is widely recognized for his insider threat expertise and unparalleled scope and breadth of experience. Mr. Thompson has been involved with creating and managing ITP's for numerous federal agencies. His work with the National Insider Threat Task Force led to the creation of the National Insider Threat Policy and ITP Minimum Standards for Executive U. S. Government Agencies. ([Bio](#))

Course Overview

- This **2 day** training course will ensure the ITP Manager (FSO, CSO, CISO, Etc.), and others who support the ITP (Human Resources, IT, Network Security, Etc.), understand their roles and responsibilities for developing and managing an ITP and ITP Working Group. **This training will also cover the legal aspects of an ITP and provide expert legal advice for protecting the privacy and civil liberties of employees.** (Legal Issues, Challenges, Considerations).
- This course will provide students with the training, knowledge and resources to ensure your government agency or business has a robust and effective ITP, that **goes beyond** compliance regulations (National Insider Threat Policy, NISPOM Conforming Change 2).
- This course is also very well suited for any organization or business that is not required to implement an ITP, but is looking to develop or enhance their ITP, or is concerned with Employee Threat Identification and Mitigation.
- This course will present a **greatly magnified view** of the Insider Threat problem, and provide a **proven and comprehensive** Insider Threat Risk Mitigation Framework, for detecting, deterring and preventing Insider Threats.
- This course provides a view of the "Insiders Playbook" of potential breach scenarios, and will demonstrate the many "Insider Threat Risks" that regulations and traditional security approaches fail to mitigate, and will put an organizations assets at risk.
- This course is based off the [Instructors](#) Real World Experience, Methodical Approach and ability to **Think Outside The Box** as it relates to developing and managing a robust and effective ITP.
- This course provides students with an Insider Threat Program Management Handbook and DVD. The handbook and DVD are filled with an abundance of educational resources and tools for ITP development and management.
